

NEW YORK

RANGE

Bring a piece of the Big Apple into your home design
with the New York range by Midland Brick.

Midland Brick

Bring a piece of the Big Apple into your home design with the New York range by Midland Brick. Combining the spirit and heritage of industrial, loft-style living with the Great Australian Dream, this range comprises three stunning colourways featuring both rumbled and straight edged options.

Albany

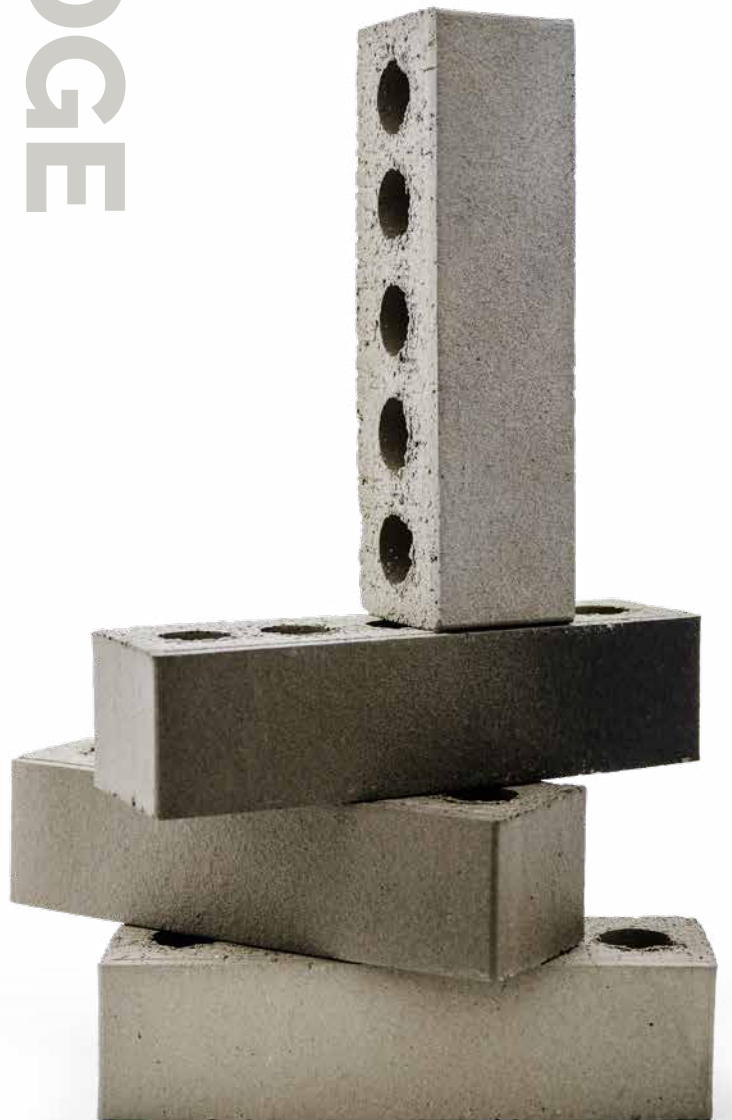

Hudson

Newburgh

STRAIGHT EDGE

Straight edge bricks in the New York range have even, square edges and smooth, vibrant finishes. Over 25% longer than a standard brick, these straight edge bricks create clean lines and a feeling of scale that is perfectly at home in feature walls or whole home elevations.

Albany Coach

Hudson Coach

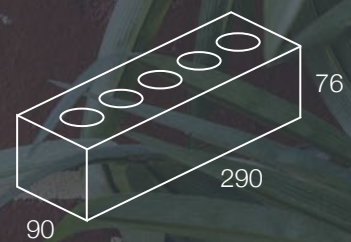

Newburgh Coach

RUMBLED

Also referred to as "coached" or "tumbled" bricks, this range has been purposefully rumbled to slightly abrade their finishes and remove their straight, clean edges. This produces an aged, rustic effect that beautifully mimics the look of recycled or repurposed bricks.

Uniquely sized at 60mm longer than a standard brick, the New York range translates the essence of heritage New York City lofts into a modern architectural feature. As suited to feature walls and landscaping elements as they are to a whole house elevation, a New York brick is perfect for those who want the benefits of double clay brick construction but crave a little something extra.

New York

290x90x76mm

Bricks per sqm	38.8
Bricks per pack	252
Nominal weight per pack	830kg

Samples and displays should be viewed as a guide only. Colour/shade variations occur from batch to batch. Colours shown in this brochure are indicative only and should not be used for final selection. Whilst every effort is made to supply product consistent with brochures and examples, some colour and texture variation may occur within production runs. Not all colours are available in every region for each product. See your retailer for colours available in your region. Products ordered should be chosen from actual samples current at the time of order and are subject to availability. Photographs in this brochure are only representative of Midland Brick products and the appearance and effect that may be achieved by their use. Customers should ensure all delivered products are acceptable, and any concerns about products are made prior to laying.

This publication is printed onto paper stock that is manufactured from timber sourced from sustainable resources. Both printer and paper manufacturer are accredited to the highest international environmental standards.
