

Service	Product	Determinant	Technique	Procedure	Limitations	Single Test Price	Minimum Units per required per test
Evaluation of geotechnical and civil construction material - Masonry, concrete and clay unit properties	Masonry, concrete and clay units	Geometry	Not Applicable	AS 4456.3		\$240.00	20
		Core Percentage and Material Thickness	Not Applicable	AS 4456.7		\$472.50	3
		Efflorescence	Not Applicable	AS 4456.6		\$272.50	10
		Pitting	Not Applicable	AS 4456.13		\$272.50	10
		Breaking load	Not Applicable	AS 4456.5		\$457.50	10
		Compressive strength	Not Applicable	AS 4456.4		\$457.50	10
		Resistance to salt attack	Not Applicable	AS 4456.10		\$1,885.00	5
		Water absorption	Not Applicable	AS 4456.14		\$497.00	10
		Initial Rate of Absorption	Not Applicable	AS 4456.17		\$375.00	10
		Abrasion index	Not Applicable	AS 4456.9		\$810.00	20
Evaluation of mechanical performance of pedestrian and impact attenuation surfaces	Pedestrian surfaces	Slip resistance	Wet Pendulum	AS 4586 Appendix A		\$995.00	5
Sample collection	Masonry, concrete and clay units	Not applicable	Nominated Quantity of Masonry Units	AS 4456.1
