Midland Brick 80 CELEBRATING 80 YEARS

Delivery Service

RELIABLE SERVICE • CONSIDERED PLACEMENT • CLEAR DELIVERY RECORDS

Transport – Delivery Service

ONE TEAM

ONE POINT OF ACCOUNTABILITY

From order through to final placement on site, our dedicated Midland Brick team manages every stage of the delivery process.

With experienced people coordinating your delivery from start to finish, you benefit from a single point of contact, clear communication and consistent service, backed by a team that takes ownership every step of the way.

Capability, by the numbers

Our experienced drivers, dedicated fleet and trusted transport partners provide the flexibility and capability to support a wide range of delivery requirements.

28
QUALIFIED DRIVERS
Dedicated Midland Brick delivery team.

$6.3m+
FLEET INVESTMENT
Continued investment in our fleet. Reliable Deliveries. Every Time

~6,900
HOMES P/A DELIVERED
Supporting residential and commercial projects across Western Australia.

~1,000
YEARS EXPERIENCE
Delivered Right. Placed Right. First Time.

Our assets, our capability

Our dedicated fleet includes 35 trucks, 49 trailers, 7 dollies and 40 telehandlers, providing the capacity and flexibility to support a wide range of delivery requirements.

With a diverse fleet, we can plan a vehicle suited to your delivery requirements, from tight residential frontages through to bulk project deliveries. We match the vehicle to your site requirements before your order is scheduled, helping us plan the most suitable vehicle for your delivery.

8X4 TRUCK & DOG
One of our primary delivery combinations, providing versatile and reliable transport for residential and commercial building sites.

TRUCK & PIG
A versatile combination for deliveries to a range of building sites, subject to site access..

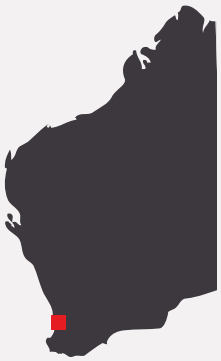

ROAD TRAIN
Purpose-built for high-volume regional deliveries, providing increased carrying capacity and efficient transport across Western Australia.

Transport – Delivery Service

Metro and Regional WA coverage

Delivering where our customers build, with an established network servicing metropolitan Perth and regional Western Australia.

Perth Metropolitan Area:
Northern, Southern, Eastern, South-Eastern Growth Corridors

Peel Region:
Including South Yunderup

South West Region:
Capel and the broader corridor

Mid West Region:

Licences, history and medical checks	Induction, load restraint & site rules	Supervised deliveries with an assessor	Practical competency sign-off	Cleared to deliver independently

WA Heavy Vehicle Accreditation, Operator 00004 – covering Fatigue Management, Maintenance Management, Dimension & Loading, and Mass Management.

When to expect us

We schedule deliveries within two general delivery windows.

Timing may vary depending on traffic, site access, load requirements and other operational factors. Please let us know about clearway restrictions or specific site hours when you place your order so we can schedule accordingly.

WINDOW	TIME	WHAT IT MEANS
1st / Special 1st Load	7am–10am	First-round deliveries, including those requiring early site access or specific arrival times to meet scheduled site requirements.
2nd Load	10am–2pm	Second-round deliveries, including smaller orders and multiple-drop runs.

Transport – Delivery Service

How you can help us deliver

A FEW SIMPLE STEPS CAN HELP YOUR DELIVERY RUN SMOOTHLY

1 ### Clear, legal access
Provide a firm, level standing area clear of parked cars, bins, spoil and overhead power lines.

2 ### A contact on site
Provide a name and mobile number for someone who can be contacted on the day, along with details of anyone who needs to authorise entry.

3 ### Confirm placement early
Confirm where your delivery needs to be placed when booking. Please advise us of any site restrictions, including cranes, scaffolding, soft ground or limited access.

4 ### Confirm changes by 7am the day before delivery
Please advise us of any changes to your order or delivery requirements by 7:00am the day before delivery to allow sufficient time for scheduling and vehicle allocation.

5 ### Keep the zone safe
Keep people, trades and children clear of the unloading area and follow the driver's directions during delivery.

✓ ### Proof of delivery
Photos and time stamp for every delivery.

What our customers say

> "Jeremy delivered 74 packs on multiple loads to Justin's house – the best brick delivery service he has received in all his years in the building industry. Every request was completed effortlessly on a difficult site."
>
> **Customer Feedback – Midland Brick Transport**

> "The delivery driver went above and beyond, overcoming a challenging site to place the pallets exactly where we needed them."
>
> **Customer Feedback – Midland Brick Transport**

WE ARE HERE TO HELP IF SOMETHING GOES WRONG

One call or email to our Customer Service team gets things moving. We'll investigate using GPS tracking, delivery dockets and site photos, prioritise the issue and keep you informed about what happened and how we're working to resolve it.
